

GTL has received the prestigious **Greentech Environment Excellence Silver Award 2008** in the Infrastructure Sector for outstanding achievement in Environment Management.

GTL has received this award for continuous efforts in reducing the consumption of natural resources as part of our Environment Management System. Some of the significant achievements are:

- **Reduced Electricity Consumption:** Achieved 11.83% reduction as against a target of 5% YoY
- **Reduced Water Consumption:** Achieved 12.87% reduction as against a target of 5% YoY
- **Reduction in Paper Consumption:** Achieved and Maintained 33% reduction in paper consumption for last two years.

Greentech Environment Excellence Award serves as catalyst to understanding the intrinsic value of environmental management in business excellence and sustainability.
